HEAVY WAXING FINISHING SOAP THAT NEUTRALIZES BLEACH

Final Wash is a heavy waxing finishing soap that neutralizes the caustic effects of bleach based cleaners. Final Wash can be used on a multitude of different surfaces including vinyl siding, metal roofing, windows and any surface where a glossy finish is required.

Final Wash can be used as your final step to neutralize bleach when cleaning a surface listed above, or as an equipment cleanser to protect and prolong usage of your pumps, reels, and hoses.

Final Wash is commonly used as a truck wash to protect the vehicle from corrosion when in frequent contact with bleach. Final Wash is safe to spray on entire truck including bed, frame and springs.

Always rinse Final Wash off your surfaces with cold water to activate the wax.
