SOFT WASHING LEAVE IN CONDITIONING AGENT

Restore is a leave-on conditioner. It also neutralizes the caustic effects of bleach-based cleaners. Restore can be used on a variety of different surfaces including decks, vinyl siding, fencing (wood & PVC), awnings, and wood shake (roofing or siding). Restore is used as a secondary step after the surface has been cleaned and rinsed. Restore can be applied to the cleaned surface while the surface is still moderately wet, but if using restore on wood, make sure surface is not drenched with water.

Restore is a four-fold product that neutralizes the caustic effect of bleach from cleaning, moisturizes, and conditions the surface, and it contains a UV inhibitor with an antimicrobial

element to protect from future damaging elements. After applying to the surface, leave the light foaming product to dry.

DO NOT RINSE AFTER APPLYING.

ASPHALT SHINGLE ROOFS

Asphalt composition is one of the most common roofing materials for homes and businesses it is widely available and comes in a variety of styles and qualities. Unfortunately, the materials are vulnerable to the elements and does not have the lifespan as other roofing materials. Under direct sunlight, shingles can become brittle and cracked. In shade, bacteria and algae thrive feeding on the minerals in shingles, producing unsightly black streaks. That is why we offer homes and businesses a unique solution to protect their roofs from these vulnerabilities.

WHAT IS RESTORE

Restore is a leave-in conditioning soap that also neutralizes our cleaning solution restore is used as a third step after the surface has been soft washed and rinsed how to do asphalt shingles it has for restorative properties moisturizes and conditions on the surface and contains a UV inhibitor with an antimicrobial element to protect from future damaging elements.

MIXING RATIOS

RESTORE	WATER	Recommended SURFACE	RESULT
1oz	1gal	Vinyl Siding	Light Moisturization, Neutralization of Bleach, Protection from Sun & Organisms
2oz	1gal	Vinyl Siding, Fabric Awnings	Medium Moisturization, Neutralization of Bleach, Protection from Sun & Organisms
3oz	1gal	Vinyl Siding, Cedar Shake	Moderate Moisturization, Neutralization of Bleach, Protection from Sun & Organisms
4oz	1gal	Vinyl Siding, UV Damaged Fiberglass	Heavy Moisturization, Neutralization of Bleach, Protection from Sun & Organisms
6oz	1gal	Asphalt Shingle Roofs	Heavy Moisturization, Neutralization of Bleach, Protection from Sun & Organisms

THE RESTORE PROCESS

STEP 1

SoftWash the roof by sanitizing the surface with our solution, killing all the existing bacteria.

STEP 2

Rinse the roof of dead bacteria and our cleaning solution, leaving your roof with minimal residuals.

STEP 3

Apply our Restore soap, neutralizing any residual solution, and restoring your asphalt shingle roof.

BENEFITS

Brightens: Restore treatment not only has antimicrobial properties to dramatically reduce the time between cleanings, but also pulls out the water moisture from underneath the shingles which can harbor harmful bacteria responsible for weakening roof underlayment.

Conditions: We introduce a safe, leave-in conditioner into your shingles fiberglass material which makes it stronger and flexible allowing it to stand up to the elements, and preventing the aggregate from being removed from the shingles.

THIRD-PARTY LAB TESTED

All SoftWash Systems soaps are produced and tested in labs so that they are guaranteed to be 100% biodegradable, emit zero or low VOCs, are non-hazardous, and water-based.

Restore is no exception. The only difference is that when this conditioning soap was tested and verified in a third-party lab the results were not expected and led to additional testing on shingles that were 15 years old.

CAUTION

HARMFUL IF SWALLOWED – EYE AND SKIN IRRITANT
